DETAILED ACTION

Claims 1-10, 17-19, 21-35 and 38-41 are pending in this application.

Action Summary

- 1. Examiner acknowledges the addition of claims 38-41.
- 2. The rejection of claims of 1-10, 17-19 and 21-35 under 35 U.S.C. 103(a) over Mlodozeniec is being maintained for the reasons stated in the office action dated August 27, 2002.

Response to Arguments

3. Applicant's arguments filed January 22, 2003 have been fully considered but they are not persuasive.

Applicants argue the prior art does not teach a pharmaceutical dosage unit having at least one active agent being deposited in separate discrete spaced locations on the substrate and applicant cites col. 26, lines 48-54 as further evidence. It is the position of the examiner that although having the active agent "spot deposited" on the dosage form is not the preferred embodiment of the prior art, it is still disclosed as an additional embodiment. Further, the "spot deposited" active substance are in separate discrete locations as col. 26, lines 44-46 describe depositing the active agent at "short intervals" which can read on separate discrete locations.

Allowable Subject Matter

4. Claims 38-41 are allowed.

Conclusion

5. Claims 1-10, 17-19 and 21-35 stand rejected.
